

HOW MUCH?

does it cost to build a metal home

Prefab Building

The metal building provides a durable shell for the home and features a 50 year structural, 40 year paint 25 year roof warranty. It is however only a portion of the final metal home cost.

Home Finishes

The number of rooms you decide to frame out and the level of interior finishes you select determine the final cost of the metal home - as well as whether or not you hire a contractor.

Exterior Finish

One of the major advantages to choosing a metal home is that the exterior siding & roof are included. Zillow estimates these costs to add another \$43k (\$23k in this example) to the final price.
