### Do You Actually Need a Workshop?

About 25% of our customers are searching for a garage when what they actually need is a workshop to pursue their hobbies. This distinction is important because workshops tend to be cheaper than fully loaded garages.

## DID YOU KNOW?

Adding a garage or workshop space can increase your home's value by as much as 13%

Some of our customers even finish their current garage space by turning it into a living area or bedroom to add additional square footage as in most instances more value.
